DETAILED ACTION

Applicant's response to the Office Action of 04/25/05 is acknowledged on 06/27/05.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-5, 8, 25 and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Bennett (US Patent No. 5,141,307).

With regards to claims 1 – 3, 25 and 32, Bennett discloses a light apparatus (19) adapted to project an alignment segment comprising a segment (20) and an aiming spot on a playing surface (any light area between 21-25 as shown on Fig. 1 could be considered as a spot). Support frame 30 is what is considered a support. Any of the five sequential light rays as shown on Fig. 1 could be considered as a first light source and a second light source. Elements 31 and 32 are considered as the first and second laser light sources. Regarding the intended use set forth in the preamble, the device is inherently capable of being used as a golf-training device. Applicant is not claiming process. See MPEP 2112.

Application/Control Number: 10/657,293 Page 3

Art Unit: 3711

With regards to claims 4, 5, and 8, the intended use limitation of the claims are inherently capable of being performed by adjusting the light housing 66 up and down on the shaft. With regards to claim 8, the four lines as shown on Fig. 6 provide different segments and the line horizontal line between line 80A and 80B and the horizontal line between lines 80C and 80D is considered as disconnected line segments.

Claims 1, 25, 26, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Malard et al. (US Patent Application No. 2002/0178596).

Malard discloses a light apparatus (10) adapted to project an alignment segment comprising a segment (any of the light rays as shown on Fig. 9A) and an aiming spot on a playing surface (what is shown as reference 87 on Fig. 9A could be considered as a spot). Support frame (12). Please note that on page 4 paragraph 39 it is disclosed that the device could be mounted floor or any flat surface. Therefore it can be concluded that it is capable of being used in a golf game. Regarding the intended use set forth in the preamble, the device is inherently capable of being used as a golf-training device.

Applicant is not claiming process. See MPEP 2112.

Regarding claim 26, projection lens 74 is considered as a beam spreader.

Allowable Subject Matter

Claims 11-13 and 27-31 are allowed.

Application/Control Number: 10/657,293 Page 4

Art Unit: 3711

Claims 6, 7, 9 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1-13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nini F. Legesse whose telephone number is (571) 272-4412. The examiner can normally be reached on 9 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Greg Vidovich can be reached on (571) 272-4415. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
